Media Information 2018

In cooperation with **UTA, FERNFAHRER** introduces **FERNFAHRER Autohöfe App for iPhone and Android.**

FERNFAHRER Autohöfe App is the indispensable companion for all truck drivers all over Europe.

With this App you will find any rest stop, motorway service and petrol station in Europe.

The truck driver can retrieve all kinds of information regarding opening hours as well as truck stop or petrol station facilities. There is a convenient search field function for periphery and motorway searching or even a search along the driver's route. Drivers cannot miss the nearest Autohof/rest stop because the App tells the user how close you are to your next rest stop.

With the „News" category the truck driver is provided with any important up-to-date information from the editorial staff of **FERNFAHRER.** If the user is in need of anything he can choose the category „Servicepartner" to find the nearest service station.

- More than 105.000 professional drivers are using this App to obtain information on rest stops and rest areas along their tours.
- More than 30.000 sessions per month
- On average more than 350 active users per day
- A lot of positive feedback from professional drivers
- Target group: professional driver with affinity towards internet and smartphone
- Languages: German, English, French, Spanish, Italian, Dutch, Polish, Hungarian

Please put the App to the test:

2
